

**Teaching Assignment  
Odd Semester (Session 2019-20)**

| <b>Course code with Title</b>                               | <b>Instructors</b>   | <b>Tutors</b>       |
|---|----------------------|---------------------|
| <b>1xx Courses</b>  |                      |                     |
| BIO101 - Cellular basis of life                             | SST(B)               |                     |
| BIO111 - Basic Biology Lab                                  | KC, SBP, IL          |                     |
| CHM101 - Chemistry of elements and chemical transformations | DA                   |                     |
| CHM111 - Chemistry Lab I                                    | SP(C), SAB,<br>SG(C) |                     |
| HSS101 - Language skills - A                                | ADC                  |                     |
| HSS101 - Language skills - B                                | RB                   |                     |
| IDC101 - Introduction to computers                          | AK                   | DC, Jayanta, KRS    |
| MTH101 - Symmetry   | CB                   |                     |
| PHY101 - Mechanics  | SK(P)                | SD, JSB, Manabendra |
| PHY111 - Physics Lab I                                      | SB(P)                | YS, Aru             |

|   |                 |                     |
|---|-----------------|---------------------|
| <b>2xx Courses</b>                                |                 |                     |
| BIO201 - Genetics and evolution                   | NGP             | IL                  |
| BIO211 - Biology Lab III                          | NGP, SM(B), RRC |                     |
| CHM201 - Spectroscopic and other physical methods | SR              |                     |
| CHM211 - Chemistry Lab III                        | UG, SV          |                     |
| IDC202 - Chemical Biology                         | SM(BC)          |                     |
| IDC207 - Introduction to Cryptography             | CAS             |                     |
| MTH201 - Curves and surfaces                      | PS              |                     |
| PHY201 - Waves and optics                         | KPS             | AC, ASJ, Manabendra |
| PHY211 - Physics Lab III                          | HKJ             | KPL, SM(P)          |
| IDC211 - Workshop training                        | AV              |                     |

|                                     |                                       |  |
|-------------------------------------|---------------------------------------|--|
| <b>Seminar Courses</b>              |                                       |  |
| IDC351 - Seminar (Attending)        | KD,RK(P), KRS, MJ,NS                  |  |
| IDC451 - Seminar (Delivering)       | AC,GS, KRS, AM,NS                     |  |
| IDC601 - Seminar (Attend & Deliver) | KPY,ASJ, KRS, SBP,RR(B), NS, VS,SP(E) |  |

|  |          |  |
|--|----------|--|
| <b>Biology Major Courses (BIO 3XX)</b>               |          |  |
| BIO301 - Animals: Form and function                  | SB       |  |
| BIO302 - Advanced cell biology                       | SKM      |  |
| BIO303 - Experimental design and hypothesis testing  | SS(B)    |  |
| BIO311 - Molecular methods in biology lab            | RY/PG/NR |  |
| <b>Biology Major Courses (BIO 4XX)</b>               |          |  |
| BIO401 - Structure and function of genomes           | SAS      |  |
| BIO402 - Microbial physiology and microbial genetics | RC       |  |
| BIO411 - Bioinformatics lab                          | KSS      |  |
| <b>Chemistry Major Courses (CHM 3XX)</b>             |          |  |

|   |                    |                               |
|---|--------------------|-------------------------------|
| CHM301 - Quantum chemistry                                      | PB                 |                               |
| CHM302 - Organic chemistry                                      | RS                 |                               |
| CHM303 - Main group chemistry                                   | SS(C)              |                               |
| CHM311 - Organic chemistry lab                                  | SBM, RVA, SAB, SSG |                               |
| <b>Chemistry Major Courses (CHM 4XX)</b>                        |                    |                               |
| CHM401 - Molecular spectroscopy                                 | RR(C)              |                               |
| CHM402 - Chemistry of materials                                 | DJ                 |                               |
| CHM411 - Physical chemistry lab                                 | JG                 |                               |
| <b>Mathematics Major Courses (MTH 3XX)</b>                      |                    |                               |
| MTH301 - Analysis in R <sup>n</sup>                             | VRS                |                               |
| MTH302 - Integers, polynomials and matrices                     | CK                 |                               |
| MTH303 - Ordinary and partial differential equations            | AM(M)              |                               |
| MTH304 - Topology   | MS(M)              |                               |
| <b>Mathematics Major Courses (MTH 4XX)</b>                      |                    |                               |
| MTH402 - Functional analysis                                    | LS                 |                               |
| MTH403 - Manifolds  | SOM                |                               |
| <b>Physics Major Courses (PHY 3XX)</b>                          |                    |                               |
| PHY301 - Classical mechanics                                    | KPY                |                               |
| PHY302 - Quantum mechanics                                      | A                  |                               |
| PHY303 - Electrodynamics  | RK(P)              |                               |
| PHY 310 - Mathematical methods for physicists I                 | AJ                 |                               |
| PHY311 - Advanced optics and spectroscopy lab                   | MS(P)              | SG(P), Manabendra, M S Sidhu  |
| <b>Physics Major Courses (PHY 4XX)</b>                          |                    |                               |
| PHY401 - Nuclear and particle physics                           | SJ                 |                               |
| PHY402 - Solid state physics                                    | GS                 |                               |
| PHY403- Atomic and molecular physics                            | KD                 |                               |
| PHY411 - Nuclear physics lab                                    | VB                 | KL, Kirandeep Kaur, Radhikesh |
| <b>Mathematics PhD Courses (MTH 6XX)</b>                        |                    |                               |
| MTH601 - Topics in algebra                                      | AG                 |                               |
| MTH602 - Topics in topology                                     | SDM                |                               |
| MTH605 - Topics in analysis                                     | JK                 |                               |
| <b>Physics PhD Courses (PHY 6XX)</b>                            |                    |                               |
| PHY601 - Review of classical mechanics                          | KL                 |                               |
| PHY602 - Review of electrodynamics                              | SD                 |                               |
| <b>Electives</b>  |                    |                               |
| <b>Humanities &amp; Social Sciences</b>                         |                    |                               |
| HSS611- Literary appreciation ( <b>PhD students only</b> )      | ADC                |                               |
| HSS620- Imagining India: An intellectual history of orientalism | VR                 |                               |
| HSS634- Themes in infrastructure studies                        | RB                 |                               |
| HSS636- Climate change and sustainable development              | BS                 |                               |
| HSS638- Ethnographic research and writing                       | AS                 |                               |

|  |          |  |
|--|----------|--|
| HSS639- Advanced theory and method in Paleoanthropology (PhD students only)                        | PRC      |  |
| HSS-642 – Science and society  | RB       |  |
| <b>Inter-disciplinary Courses</b>  |          |  |
| EES301- Sedimentology and Concepts in Stratigraphy   | SB(E)    |  |
| EES403- Remote Sensing and GIS   | SS(E)    |  |
| EES404- Basic Meteorology  | RA( E)   |  |
| EES636 - The quaternary period-environments, animals adaptations during the last 2.5 million years | PRC      |  |
| EES638- Paleoclimatology   | AA       |  |
| IDC408- Environmental hygiene, sanitation and waste management                                     | BS/SP(E) |  |
| IDC409- Introduction to Data Sciences  | AK       |  |
| IDC632 - Introduction to atmospheric chemistry and physics   | VS       |  |
| <b>Biology</b>   |          |  |
| BIO308 - Fundamentals of Microbiology  | IB       |  |
| BIO456- Cancer cell biology  | MS(B)    |  |
| BIO612 - RNA biology   | RR(B)    |  |
| BIO615 - Developmental biology   | LM       |  |
| BIO616 - Animal behaviour: Proximate mechanism, ultimate causes                                    | MJ       |  |
| BIO628- Synthetic biology  | AKB      |  |
| BIO629- Bioinformatics   | KSS      |  |
| <b>Chemistry</b>   |          |  |
| CHM307 - Electrochemistry and ionic equilibria   | SG       |  |
| CHM601 - Advanced inorganic chemistry  | SM(C)    |  |
| CHM606 - Bio-organic chemistry   | SBM      |  |
| CHM607 - Chemical crystallography  | ARC      |  |
| CHM610 - Chemistry of natural products   | RVA      |  |
| CHM617- Chemical dynamics and non-adiabatic interactions   | PB, KRS  |  |
| CHM619 - Numerical methods in chemistry  | MS(C)    |  |
| CHM620 - Energetics and dynamics of chemical reactions-2   | AKD      |  |
| CHM624 - Soft matter, colloids and interfacial phenomena   | RKR      |  |
| CHM626- Photochemistry- Concepts, Techniques and Applications                                      | SSG      |  |
| <b>Mathematics</b>   |          |  |
| MTH411 - Commutative and homological algebra   | AB       |  |
| MTH412- Structure of algebras  | TK       |  |
| MTH421: Combinatorial group theory   | KG       |  |
| MTH422 - Representations of finite groups  | SUM      |  |
| MTH426: Algebraic curves   | VV       |  |
| MTH435: Random processes   | NS       |  |
| <b>Physics</b>   |          |  |
| PHY424 - Relativistic quantum mechanics and quantum field theory                                   | ASJ      |  |
| PHY633- Mesoscopic physics   | AV       |  |
| PHY638- Physics of fluids  | JSB      |  |

|   |       |  |
|---|-------|--|
| PHY640- Non-equilibrium statistical mechanics                       | DC    |  |
| PHY644- Foundations of quantum mechanics                            | SG(P) |  |
| PHY668- Soft Matter Physics   | AC    |  |
| <b>INST</b>   |       |  |
| INS652- Characterization of nanomaterials                           |       |  |
| INS657-Carbon nanomaterials and its applications                    |       |  |
| INS658- Nanobiotechnology and nanomedicine: Basics and applications |       |  |
| INS662- Energy conversion and storage                               |       |  |
| INS663- Nanotechnology in Drug delivery                             |       |  |

**Expansion of Initials of Faculty**

| Initials | Name                                     | Initials | Name  |
|----------|--|----------|---|
| A        | Prof. Arvind                             | NS       | Dr. Neeraja Sahasrabudhe                    |
| AA       | Dr. Anoop Ambili                         | PB       | Dr. P. Balanarayan                          |
| AB       | Dr. Anirban Bose (Inspire faculty)       | PG       | Prof. Purnananda Guptasarma                 |
| AC       | Dr. Abhishek Chaudhuri                   | PS       | Dr. Pranab Sardar                           |
| ADC      | Dr. Adrene Freeda D'Cruz                 | PRC      | Dr. Parth R Chauhan                         |
