

PUBLIC LECTURE

BLUEPRINT OF LIFE

PROFESSOR BENNY SHILO

Prof. Benny Shilo is the Hilda and Cecil Lewis Chair in Molecular Genetics, Weizmann Institute of Science and a visiting Professor at Yale University and Stanford. He was a fellow at the Radcliffe Institute for Advanced Study at Harvard.

In this lecture, he will elucidate the fundamental concepts of Developmental Biology to commoners with the help of photographs captured from daily life.

December 07, 2018 **Time: 4.00PM**
